

2023

PROFESSIONAL BIG GAME FISHING LURE MANUFACTURER

CRYSTAL CLEAR RESIN

Every head is constructed out of hard crystal clear resin which features chip proof and yellow resistant.

HOLOGRAPHIC LURE EYE

Crafted from ultra holographic film to give the highest amount of shimmer and reflection.

HOOK LOCK SYSTEM

Our rubber hook lock system will keep your hook set held straight in water.

MACHINED WEIGHTED INSERT

Machined from high grade stainless steel or aluminum. Our inserts are designed specifically for each head to keep our Offshore lures pulling straight and true.

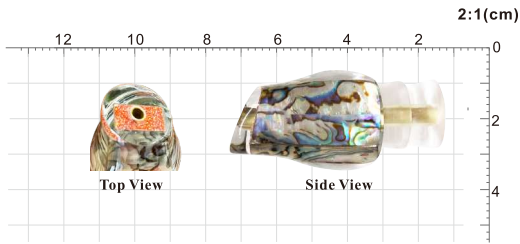

HAND TIED SKIRT

Our lure is hand tied securely with premium waxed rigging floss.

REAL ABALONE SHELLS

We use only the highest quality Abalone shell from all over the world. Cut to fit the insert perfectly by laser cutting machine.

Flying Fish

The Flying fish is made from soft plastic. It's one piece and is ideal for being used as a kite bait, teaser bait, and trolling bait. It is made with a large rigging channel in the bottom. For kite application, the channel has a tunnel to the top. For trolling applications, the channel has a tunnel from front to back. Featuring high quality paint with a realistic look, to really attract those bites and hold up through multiple uses.

Adhesive Lined Shrink Tube

Keep your cable crimps and hooksets protected and in place with our adhesive lined marine grade shrink tubing. This tube is slid over the components or wire, and heated with a lighter, flame, steam or heat gun to shrink fit.

It traps components together, protects and stops multi-strand wire from unraveling. Especially useful when making wire shark traces and game fishing rigs.
